Instructions for filling in the form:

The work of the student judge in the ring serves a dual purpose:

- The student judge is given the opportunity to learn more about the breed(s).
- The judge gets the possibility to assess the aptitude of the student judge as a future judge for the named breed(s).

In order to comply with these two targets the judge must converse with the student judge in the ring. Only by asking questions the judge will be able to form an impression of the student judge and subsequently fill in the form in a proper manner.
